

## JobSensei – Additional Market-Ready Features

### AI Resume & Portfolio Builder

 *Why: Users in Tier-2/3 cities often lack polished resumes.*

---

#### ✓ Features:

- AI-powered resume suggestions (based on roles or job descriptions)
- Auto-generation of resume & portfolio PDF
- Templates for freshers, experienced, tech/non-tech
- One-click export to LinkedIn, GitHub, Behance, etc.

### Mentor Chatbot (AI Career Coach)

 *Why: Instant answers + guidance = user retention*

---

#### ✓ Features:

- Ask career doubts, college vs startup choices, skill suggestions
- Personalized based on user profile
- GPT-powered responses

### Skill Gap Analyzer

 *Why: Helps users know 'what's missing' for their dream role*

---

#### ✓ Features:

- Upload or write a target job role
- Get a skill gap report based on current skills
- AI-generated upskilling plan (courses, mentors, practice)

### Video Resume Upload & Feedback

 *Why: Great for startups to see personality and confidence*

---

#### ✓ Features:

- Upload short video pitch
- AI or mentors give feedback
- Star rating system to improve over time

## Job Match Score

 *Why: Makes decision-making easier*

---

### ✓ Features:

- AI assigns a % match for every job listing
- Based on user's skills, experience, interests

## Project Showcase (Startup Friendly)

 *Why: Many early-stage devs build but don't show off*

---

### ✓ Features:

- Upload GitHub links + video demo + summary
- AI-enhanced pitch (makes it marketable)
- Recruiters can filter by 'project strength'

## AI Interview Simulator

 *Why: Tier-2/3 students may fear real interviews*

---

### ✓ Features:

- AI bot asks behavioral + technical questions
- Evaluates confidence, content, tone
- Gives improvement tips

## Local Job Radar

 *Why: Geo-specific jobs often go unnoticed*

---

### ✓ Features:

- Map-based view of jobs nearby
- College + city-based filtering
- Freelance/internship visibility in remote regions

## Peer Learning Groups (Community)

 *Why: Students learn best with others*

---

✓ Features:

- • Join groups based on career interest
- • Discussion boards, mock tests, mini-projects
- • Leaderboard for active contributors

## AI-Powered Skill Graph

 *Why: Visual learning is powerful*

---

✓ Features:

- • See a graph of your current vs required skill depth
- • AI recommends next action steps

## Optional Business-Ready Add-ons (For Later)

- • SaaS Dashboard for colleges
- • Recruiter dashboard + credits system
- • Startup-focused candidate search filters
- • Analytics for user growth & engagement
- • Premium mentorship sessions (paid)
